Project Name	FlightFinder
Maximum Marks	

Project Overview:

Project Name: Flight Finder

Project Description: Flight Finder is a smart, real-time flight discovery platform that delivers personalized recommendations and price alerts using dynamic search and adaptive indexing.

List of Features and Functionalities to be Tested

- User Registration via Gmail
- Email Confirmation workflow
- Flight Search functionality (by source, destination, date)
- Sort operations (price, relevance, travel time)
- Price Drop Alerts for selected routes
- Personalized Flight Recommendations
- Redirection to external booking platforms
- Redirection success/failure tracking
- User Dashboard (saved searches, alerts, activity)
- Admin Panel (analytics dashboard, search index configurations)
- Customer Support (ticket handling and response)
- System responsiveness, performance under load, and API integration stability

List of User Stories or Requirements to be Tested

- FR-1: User Registration
- FR-2: User Confirmation
- FR-3: Flight Search
- FR-4: Alerts & Recommendations

- FR-5: Booking Redirection
- FR-6: User Dashboard
- FR-7: Admin Functions
- FR-8: Customer Support
- Sure thing, MD! Here's a set of sample **Test Cases** tailored to the *FlightFinder* project:

• 🛪 FlightFinder Test Cases

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
11	Gmail-based User Registration	1. Navigate to registration page 2. Click "Sign up with Gmail" 3. Complete OAuth login	User account is successfully created and redirected to dashboard	[Fill after test]	[~ / X]
TC- 002	Email Confirmation Flow	1. Register with Gmail 2. Open verification email 3. Click confirmation link	Email verified, user account becomes active	[Fill after test]	[~ / X]
TC- 003	Search Flights by Source, Destination, Date	1. Enter valid source and destination 2. Pick a travel date 3. Submit search	List of matching flights displayed with accurate details	[Fill after test]	[~ / X]
TC- 004	Sort Flights by Price	1. Perform a search 2. Select "Sort by Price" 3. Observe flight list	Flights reordered from lowest to highest price	[Fill after test]	[~ / X]
~ ~ -	Set Price Alert for Route	1. Search for flight 2. Click "Set Price Alert" 3. Confirm alert setup	Alert created successfully with confirmation message	[Fill after test]	[~ / X]
111 11 16 3	Receive Personalized Flight Recommendations	1. Login as user with prior history	Personalized flights shown based on past searches	[Fill after test]	[/ X]

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
		2. Visit home/dashboard			
TC- 007	Redirect to External Booking Site	1. Search and select a flight 2. Click "Book Now" link	Redirect occurs to airline/partner booking site	[Fill after test]	[~ / X]
	Track Booking Redirect Outcome	1. Perform a redirect 2. Check logs/analytics	Redirection is tracked and result is recorded (success/failure)	[Fill after test]	[~ / X]
TC- 009	Admin Views Search Analytics	 Login as Admin Go to Analytics tab 	Graphs/statistics of user searches and behavior displayed	[Fill after test]	[~ / X]
	Customer Support Ticket Handling	1. User submits support request 2. Admin logs in 3. Responds and closes	Ticket marked as "closed" and user notified	[Fill after test]	[~ / X]

Flight Finder – Bug Tracking Log

	8				
B u g I D	Bug Descript ion	Steps to Reproduce	Sev erit y		Additi onal Feedba ck
B G - 0 0	Flight search results not loading	1. Navigate to home 2. Enter source/destin ation 3. Click 'Search'	Hig h	Open	Likely due to timeout or query misfire
B G - 0 0 2	Gmail login fails on mobile browser	1. Open site on mobile 2. Click 'Login with Gmail' 3. Approve OAuth flow	Me diu m	In Progre ss	Works on desktop ; mobile redirect breaks

B u g I D	Bug Descript ion	Steps to Reproduce	Sev erit y	Status	Additi onal Feedba ck
B G - 0 0 3	Price alert button unrespon sive	1. Search any route 2. Click 'Set Price Alert' 3. Observe no response	Me diu m	Open	JavaScr ipt error in alert functio n
B G - 0 0 4	Sorting by duration shows incorrect order	1. Perform flight search 2. Select 'Sort by Travel Time' 3. View listed flights	Lo w	Open	Some flights with longer duratio n listed first
B G - 0 0 5	Admin panel analytics not loading	1. Login as admin 2. Go to Analytics tab 3. Wait for load	Hig h	Open	Backen d API returns 500 error
B G - 0 0 6	Redirecti on tracking not recordin g events	1. Click 'Book Now' 2. Redirect to airline site 3. Check dashboard logs	Me diu m	In Progre ss	Trackin g missing for some provide rs

Notes:

Comprehensive Coverage: Ensure all test cases address both positive and negative scenarios, validating normal workflows as well as edge cases and invalid inputs.

- **Tester Feedback**: Encourage testers to document **detailed observations**, usability issues, and **suggestions for feature or interface improvement** throughout the testing cycle.
- **Bug Reporting**: All bugs must include:
 - o A clear description of the issue
 - Detailed steps to reproduce
 - o Defined severity level (Low, Medium, High)
 - o Current status (Open, In Progress, Closed)
- Deployment Approval: Final deployment must only proceed after receiving formal sign-off from both the Project Manager and the Product Owner, confirming that all critical paths are verified and resolved.
